INTERNAL VIEW OF EUT-1

A circular green printed circuit board (PCB) is shown next to a ruler for scale. The PCB features several components: a small rectangular component at the top, a larger component labeled '1580' and '1580' in the center, and a small component labeled '1580' at the bottom. The board has three mounting holes and various surface components. The ruler indicates the board's diameter is approximately 100 mm.

Antenna

This image shows a close-up of the antenna on the Raspberry Pi Zero module. A red rectangle highlights the antenna structure, which is a small, rectangular, gold-colored component. A speech bubble points to it with the label "Antenna". The antenna is mounted on a blue PCB, which is part of the Raspberry Pi Zero module. The module is connected to a green PCB, which is the main board of the device. The background is a blue, textured surface.
